In the Realm of Women

By FENELOPÉ

Said of Woman.
A bachelor seeks a wife to avoid solitude, a married man seeks a wife to avoid a life-alone.—Bernard de Varannes.

Honor to women. To them it is given to garden the earth with the roses of heaven.
—Friedrich von Schiller.

Silence and blushing are the eloquence of women.—Chinese proverb.

For where is any author in the world Teaches such beauty as a woman's eye.
—Shakespeare.

A woman, lovely woman, nature made thee To temper men; we had been brutes without you. Angels are painted fair to look like you.
—Thomas Otway.

Miss Jessie Harris goes to Lac St. Anne shortly to visit Mrs. Bourman. Stanley Wood, son of Mr. and Mrs. H. Wood, Althausen, is announced.

Miss Violet Ryan has returned to town after a pleasant holiday spent in Banff.

Miss J. J. Dougherty arrived in town last week and has taken a home in Twenty-fourth street.

Mr. and Mrs. M. W. Dickinson, Kennedy street, leave soon for a six weeks' holiday in Iowa.

Mrs. A. Fraser and her little family, Mrs. McLean and Miss Alice, are expected to arrive in town today from the Fraser camp at Lake Wilhams.

Mr. and Mrs. Campbell and little Joan are the guests of Mrs. Campbell's parents, Mr. and Mrs. Jolin, seventh street, for a few days.

Mr. C. A. Lipp, Midway, Sask., Miss E. R. Rindall and Miss Peterson, of home, Roseville, Ont., are guests of Rev. L. R. Wight at the Highland patronage.

The engagement of Mabel Hett, daughter of Rev. R. B. Rindall and Mrs. Rindall, Fort Vermilion, to Thomas Wood, son of Mr. and Mrs. H. Wood, Althausen, is announced.

His Lordship, Bishop Roblin, Miss Sarah Matheson, Bishop Cochrane, John's Winnipeg, will arrive in Althausen about the twenty-first, from their trip through the Peace River.

Judge Macdonald and Mrs. Macdonald, of Regina, are expected to arrive in town shortly to visit Mr. and Mrs. John Rogers.

Mr. Alan Fraser leaves on Saturday for Victoria. Mr. Fraser will be reluctantly bid him adieu as he is expected to leave on his return to Edmonton in some of his most prominent and spirited citizens. His name will always be identified with that splendid institution, the Royal Alexandra Hospital, for which he has done so much. In club life too, he is a success to him and his in his new post in beautiful Victoria.

CONVERT TO CATHOLIC CHURCH.
Madrid, Aug. 15.—Princess Beatrice of Sax-Coburg and Gotha is shortly to be received into the Catholic Church, according to an announcement made by the Spanish premier, Count Alvaro de Romanones.

WHAT TO EAT IN SUMMER.
All foods can be roughly divided into four groups: protein, which forms muscle, and includes beans, peas, eggs, meat, cheese, and so forth; fats, which produce heat, and include oil, nut and vegetable oils, fats of meat, butter, and so forth; sugar and starch, which also form heat, and which include sugar, potatoes, rice, macaroni, and so forth; and minerals, which assist digestion and clear the system, and include spinach, lettuce, onions, watery fruits, and so forth.

In the winter we have eaten heat-producing foods, but in summer the diet should be altered, and nature should be aided by cooling foods. All the green and succulent foods she can. These green foods contain a large amount of water, much of which is the just thing for warm weather. In the diet of summer, the appearance on the menu, and twice-cooked meat and rich gravies, which combine fat, starch and meat, a very heavy combination, should be avoided.

To replace the muscle foods like meat, use the meat substitutes of beans, lentils, cheese, etc., which will give even more condensed nourishment, without the injurious effects of meat. If these foods are prepared simply and eaten cold they will be far more heating.

The sugar group milk should be chosen to be used more liberally in summer. Milk also contains similar qualities to those in meat, especially water. It is used in the form of curds, but it does not contain much sugar, and is therefore fattening, but not as heating as sugar in other forms. For sugar itself is the most concentrated food food known.

Macaroni and rice are two good starches for summer, especially when not combined with meat. Gravy, cold rice and macaroni pudding with eggs, milk, and sugar are almost a "complete meal."

Instead of frying or baking potatoes they can be used cold in salads, rice, or made into potato-boiled with eggs and milk.

PAULINE FRIEDERICH, one of the most beautiful actresses on the American stage, who last year married a millionaire and stated that she would give up the stage, only to leave her domestic life this spring and return to the stage. She is now starring in "Joseph and his Brethren."

Little Journeys to Fashion Land.
Make Your Own Hatpins.
Don't throw the whole effect of your hat entirely out of key by the use of unbecoming hatpins. It is a simple matter to have handsome hatpins to harmonize with your hat, and at a small expense too. A bit of lace, silk, brocade, or any other material will do. A hat trimmed with a touch of coral, bright blue, or green, would look all the better if its hatpins were made of large buttons made covered with the same bright material with an ordinary penny button with white or black head stuck right through the hole in the middle.

CUPID'S COURT.
CARTER—CARVAN.
Special to the Bulletin.
Twinsville, Ala., Aug. 15.—A very pretty wedding was solemnized yesterday when Miss Julia Caravan and Mr. Joseph Carter were united in matrimony. The bride wore a white of white crepe. The groom was dressed in black. They both took the 2:10 train for Edmonton where they will take the C.P.M. for Moose Jaw for their honeymoon.

DIVINE SARAF.
YOUTHFUL SECRET.
Madison, Minn., Aug. 15.—A young man of perpetual youth are. Have other interests—little interest in love. Keep you from becoming one-sided.

Decide what are the essentials of your life and concentrate on them. Decide what are the non-essentials and drop them.

Be interested in everything that happens for the moment, but do not let that interest become too deep. Be what you like, and when you like, but don't, as you like.

Drink much water. Sleep wherever, whenever you are sleepy. Sleep for a minute many times a day.

Find your way, then regard it as a pleasure, not as a penalty.

GOOD THINGS TO KNOW.
Clean glass with ammonia. Clean piano keys with alcohol. Clean wall paper with stale bread. Paint can be removed by rubbing with spirits of turpentine.

Unvarnished furniture can be polished with beeswax and turpentine. Scratched furniture can be taken from varnish by rubbing with kerosene.

Wash white spots from furniture by rubbing with kerosene. Wash linoleum with warm soap water, then apply equal parts of linseed oil and vinegar rub.

Sample summer gloves for 15c. pair

Recent purchases made in the Eastern markets of 128 dozens of lisle, cotton, silk and chamosette summer gloves was sent to us by freight instead of express, causing a big delay. The late arrival of these makes it necessary that we dispose of them immediately. They consist of gloves in wrist and elbow lengths, among which are a few lace and silk and cotton. In the large showing will be found most all colors and sizes. Gloves in this purchase that are worth as high as \$1.25 and \$1.50 per pair. Priced especially for Saturday and as long as they last, per pair.

The Come Co.—Main Floor

Women's blouses, tailored styles on sale Saturday—exceptionally low at 95c

WHILE OUR BUYER was in the Eastern market he was offered the entire surplus stock of a manufacturer's line of blouses, providing that he would take the complete line. The amount was too heavy for one merchant, but with the co-operation of another large Canadian firm the purchase was made. Our share in the purchase has arrived and will be offered Saturday morning.

The materials in these are of the popular Madras, pique, flannels and linens. Styles are strictly tailored, in sizes for all. Many are made with attached, others with detached collar. Cuffs are laundered and French styles.

These could not be bettered for early fall wear and those taking advantage of this offering by attending early—early in the morning will be greatly benefited by the offer. Choice of the assortment while they last for values of \$1.50 and as high as \$3.50, at.....

Exhibition Experiences Cold And Stormy Weather

High Wind Helps to Hold Off Rain, But Makes Air Chilly

TEN THOUSAND PEOPLE SAW THE FAIR TODAY

Program is Adhered to in Spite of Circumstances—Horse Judging Continued

The weather man evidently intends to exhibit nearly every variety of weather he has in stock, during fair week. Yesterday, and the day before, and the day before that it rained; today, there is quite a drop in the temperature and it is blowing in great style out at the grounds. Overcasts are very much in evidence today.

However, there may be some consolation taken in the high wind, for Stuart M. Houlden, local representative of the meteorological office, says that if it stops blowing it will start to rain.

Although the weather is not of the best today, the crowds began to arrive at the grounds soon after 10 o'clock. From 11:30 on until three o'clock every car was crowded to the doors, so that when the final count is made this evening it is expected that from eight to ten thousand admissions will be tallied.

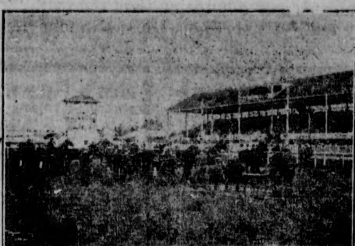

The program announced in the morning paper will be carried out in full. Just at present it seems probable that the horse judging, scheduled for the ring in front of the grandstand, will be moved to the arena. Apart from the minor changes and alterations in the announced program are anticipated.

10,000 Mile Journey.
The poultry exhibit is the exhibit of J. H. Warrington, of Cornwall, Ont., who is traveling on a 10,000 mile journey from Cornwall, on the St. Lawrence river, across and around the prairies of Western Canada, over the Rocky Mountains, down to the Pacific Coast, and even voyaging across the salt water to Victoria and Seattle.

The Warrington poultry exhibit includes 220 birds, all varieties of fow except turkeys, geese, ducks and pigeons. The itinerary of fair starts with a trip from Cornwall to Leith bridge, up to Calgary, back to Winnipeg, west to Brandon, around via Deloraine, Killarney, to Saskatoon, then to Edmonton, which makes about 4,500 miles. When leaving Edmonton, the next jump is to New Westminster, then a long hop over the Rockies to Vancouver, Seattle, Victoria, and after showing at New Westminster the birds will go to meet in this special car and start on the homeward ride back east to Cornwall.

Sleeps in Car Type House.
This poultry exhibit is traveling in one of the Atlantic Coast, car type. The poultry are now quite at home in their portable poultry house, and even Mr. Warrington enjoys sleeping in his box-car poultry house as well as in a Pullman sleeper. Mr. Warrington is a spring-coil suspended like a bird-cage.

JUDGING HACKNEY & AT THE FAIR

JUDGING OF THE HACKNEY AND HARNESS CLASSES—In Front of the Grand Stand.

WON THE EDMONTON FUTURITY RACE

MINORITA GREAT—Winner of the three, purse \$2,600; for three-year-olds.

Edmonton Futurity, two heats out of three.

From the roof, with springs inserted in the suspenders. Thus the gentle jumping and the swaying around the curves acts as a lullaby which reminds one of "Rock Me to Sleep." But in the long day-

light of the western prairie he finds "Coch Crow" comes rather early at sunrise. When all his roosters begin a crow at once it beats any patent sleep-disturbing alarm clock. But once his birds have moved for him a goodly collection of trophies at his circle of fans, sometimes he feels like cawing too.

ST. ALBERT.

On the 7th, if Jupiter does not get too Phrygian, there will be one of his biggest picnics ever held in the west, when the C. N. R. employees, with their wives and children and nephews and sisters and other "folks" sisters, will descend upon St. Albert in full force. Both the town council and the board of trade will cooperate with the management of the picnic to make it a huge success. The town council has made regulations to exclude all factors and operators of the usual swindling game, and will also issue a limited number of permits to carriers, who will guarantee a supply of pure ice cream and other refreshments at moderate prices. The board of trade has arranged for the erection of a number of small buildings for the accommodation of ladies and children attending the picnic.

On Sept. 1st, the St. Albert branch of the St. Albert Women's Institute will hold a Horticultural show, for which a prize list has already been published. However, it is not for a woman to be alone, as horticulture is a tedious task, so the board of trade will lend a hand by organizing a program of sports to be run off on the same day. Among other attractions there will be a baseball match and it is suggested that the Edmonton professional team come and leave the same—provided they do not insist on bringing along umpire McDonald. In the evening the Empress Athletic club will hold a dance in the Empress gymnasium.

Yesterday a number of St. Albert women appeared before Magistrate Rempe upon the complaint of the Town License Inspector, and reluctantly the town and municipal treasuries by the sum of \$152 in fines in addition to costs.

The fine should lead to a better observance of the provisions of the liquor license ordinance. This is to be seen on sight, and in future it will not come money and probably some license to pay it off.

Lucien Boudreau, M.L.A., was in town on business this week.

Organized labor will not formally observe Labor day in Vancouver this year. They will go to New Westminster and join in the celebration there. As Victoria intends to join in this celebration it will be a united demonstration of organized labor and the three chief cities of the province.

EDMONTON BULL DOG WINS BLUE RIBBON EVENT OF SHOW

Ch. Trafford Bullatilly, Famous English Bulldog Owned by F. C. Mahan of Edmonton, won the Challenge Cup For Best Dog or Bitch—Winner of Special Prizes

Judging in the dog show at the exhibition was concluded yesterday, the event for the special prize being the last one on the card. Ch. Trafford Bullatilly, the famous English bulldog owned by F. C. Mahan of Edmonton, carried off the challenge cup for the best dog or bitch. This is the blue ribbon event of the show and was won last year by Ch. Depot, of Toronto, a Wire-haired pointer.

Ch. Trafford Bullatilly, Famous English Bulldog Owned by F. C. Mahan of Edmonton, won the Challenge Cup For Best Dog or Bitch—Winner of Special Prizes

The President's Challenge cup for the best in the opposite sex went to class 7, Brown's tireless Irish setter. These two dogs were also trophy winners in many other events.

What President Says.
After the judging had been concluded, Charles May distributed the cups and other trophies to the various winners. Mr. May, who had charge of the show, and who is himself an enthusiastic dog fancier, was very much pleased with the success of the show this year, characterized it as the best ever held in Alberta. When asked by a journalist representative yesterday, Mr. May said: "Possibly I am very much gratified at the success of our dog show, which was when I had charge of it for the first time, we had only representative entries and now we have what is one of the best, if not the best, of the show in the west. Not only are the entries surprisingly numerous, but the class of dogs shown cannot be bettered anywhere. Throughout animals from all over the west are being shown, and when once they come they stay. Mr. Davidson, the judge, said that this is the best show he has ever seen and is of the opinion that many of the dogs shown here could win in England. Another thing which pleased me greatly and one which, in part, attracted me to the judging, was the increase in the improvement in the breed of dogs seen about the city. Many are congenious by their appearance towards."

Indicted to Danes.
The results of the magnificent array of entries, cups, shields and other trophies about to be distributed, Mr. May continued: "The club is very gratified to the different sections of the special prizes. This was the way they came forward was very gratifying. Mr. W. McLeod, secretary-treasurer of the Edmonton Kennel Club, who has also been a hard worker in the interests of the show, expressed himself as delighted with the results obtained and looks forward to the continued success and prosperity of the club."

Winners of Special Prizes.
The results of the judging in the special prize events is as follows: 1st, R. E. M. Co. Challenge Cup value \$100 for best dog or bitch, won by F. C. Mahan's Ch. Trafford Bullatilly. Gold medal accompanying challenge trophy. 2nd, R. E. M. Co. Challenge Cup for best in opposite sex to winner of above, won by Geo. T. Brown's tireless Irish setter.

Silver cup. Intended for above offered by Charles May, accompanying above cup and is returned by winner. Challenge cup, offered by R. E. M. Co., for best sporting dog or bitch in show, also sent to Graydon Duffell.

Challenge cup. offered by H. V. Shaw, for best dog owned by a member of Edmonton Kennel Club. Won by Ch. Trafford Bullatilly.

Gold Medal. offered by The Alberta Kennel Club, Calgary, for the best non-sporting dog owned by a member of The Edmonton Kennel Club. Won by Ch. Bullatilly.

Minister of above shield offered by The Alberta Kennel Club, Calgary, to be retained by winner of above. Silver Cup, value \$25, offered by H. V. Shaw, Calgary, for the best pointer in the show, awarded by a member of The Edmonton Kennel Club. Ch. May's Crown.

Gold Medal. offered by The Alberta Kennel Club, Calgary, for the best non-sporting dog owned by a member of The Edmonton Kennel Club. Won by Ch. Bullatilly.

Challenge Cup. value \$10, offered by J. L. Tipp & Co. Ltd., for the best pointer owned by a member of the P.E.C. All won by Ch. May's Crown.

Challenge Cup. value \$10, offered by J. L. Tipp & Co. Ltd., for the best pointer owned by a member of the P.E.C. All won by Ch. May's Crown.

Challenge Cup. value \$10, offered by J. L. Tipp & Co. Ltd., for the best pointer owned by a member of the P.E.C. All won by Ch. May's Crown.

Also distributing stations in all towns throughout the Dominion.

STOCK STABLE STORIES

(Continued From Page One.)

won 21 prizes at the Edmonton exhibition.

At their 20 acre farm at Red Deer, they have 50 head of Arrhorns. They ship their cream to Calgary and feed the skin milk to the calves and pigs.

With Mr. Richards at the exhibition are his 20 head of Arrhorns, which are more enthusiastic than their father in the success of the dairying business. Visitors to the Arrhorns stable find these boys busy at some odd job or doing the chores necessary to tending to their fine herd.

His Honor Lieutenant Governor Borden has purchased Arrhorns Blue. Led the second prize mature Jersey cow at the show and has won the winning honors at Regina and Saskatoon.

One of the best two year old heifers in the Bull Jersey herd was sold for \$150 to a fair value.

The Arrhorns Jersey Heifer that had won first prize at Regina, Saskatchewan and Edmonton with the first prize bull calf under a year was

sold yesterday to a Saskatchewan breeder, J. J. Mahaffie of Medicine Hat, purchased a bull of the Bull Jersey herd.

R. H. Barry of Bassano, Alta., purchased one of the prize two year old heifers of the Arrhorns Jersey herd.

Wm. Smith, M.P. of South Ontario who lives at Columbus, is a breeder and importer of Clydesdale horses, short-horn cattle and Cotswold sheep. He is a man of uncommon horse sense and is reckoned as an authority in all kinds of live stock.

Wm. Smith's horse stable is a striking personal appearance and a popular general disposition. While tending the Clydesdales, shires and heavy drafts at the Exhibition his manner in the ring has been thoughtful and critical and at the same time he moves about with the easy dignity of an expert whose life has been spent amongst the studs, the herds and the flock.

INTER-CITY GAME BANNER FOOTBALL MATCH OF THE SEASON AT 8.15 TONIGHT

Lieut. Governor Buley Will Kick Off Ball—Pres. Gow Believes Calgary Will Win Big Game—Both Teams Are Strong—Winning Team Will be Champions of the West

The biggest football game of the season will be played this evening at Medicine Hat at 8.15 when the Calgary and Edmonton picked eleven meet in the return inter-city match. Lieutenant Governor Buley will start the ball rolling at 8.15.

Everything is in favor of the home team putting over another win today, home grounds and the fact that Edmonton already has one victory over Calgary to her credit this year. These facts certainly count for a whole lot but the southerners are out for revenge today and are hopeful of turning the trick right on the Edmonton grounds.

Calgary has finally decided on their team and consider it the attraction that they will take the long end of the score.

Edmonton is relying on the same team which did so well in Calgary. The boys have been quietly training and all feel confident that they can administer a similar dose to Calgary today. No matter what the result may be it is certain to be one of the fastest and most enjoyable games ever played in the city.

The game will be of interest to footballers all over Alberta and the result of the game will be eagerly looked forward to as it will practically decide the championship of the west. James Caldwell will referee and President Small of the Edmonton League and Mr. Gray of the Calgary League will walk the lines.

Following are short sketches of the players who will represent Edmonton in today's match:

E. Parker, Goal. E. Parker, Edmonton's goalkeeper, hails from Smelter, England, where he played for the county. He has played in Edmonton for several years and has represented Edmonton on several occasions notably against the Colts.

Kinnison, Right Back. J. Kinnison hails from Forfar, Scotland. He played junior football for the Dundee Juniors and then moved to Scotland and played for the Dundee Juniors and then moved to Scotland and played for the Dundee Juniors.

McIntosh, Left Back. W. McIntosh, left back, an old St. John's player. He played senior league football in Scotland and has been with the Colts here for the last three years. "Mac" is a versatile player and occasionally shines at center forward. He is at his best, however, at back, and the Calgary forwards will find out.

McPherson, Right Half. W. McPherson, right half, hails from the Land O' Cakes. He came to Edmonton two years ago and has played for the Colts for the last two seasons. He is a good heady half back and has been with the team for the last two years.

Whitcomb, Centre Half. Whitcomb, centre half, hails from the Leysminster team of three years ago. "Bill" is figured as being one of the best centre halves in the province and is now playing as good a man as ever. He is a good player and has been with the team for the last two years.

Math, Centre. Math has practically learned all his football in Edmonton. He used to play for the Colts in 1911 and 1912 and was a good player. He is a good player and has been with the team for the last two years.

EXHIBITION GAMES HERE LABOR DAY

Bricks and Birds Will Play Double Header For Benefit the Players

Special to the Bulletin.

Calgary, Aug. 15.—The Bricks will be home again to test out the local sport and if it does not warrant the team staying here, the remaining games after the first series next week, will be transferred to Edmonton, where the Bricks will wind up their league season on August 23 with the Birds.

On Labor Day, double-headers will be played as an exhibition in the northern city, the players of the two teams dividing the gate receipts.

After the holiday season here, the Bricks will return to Calgary and a special field day for players in now being arranged and will take place on September 1.

In the meantime, Sam Savage evidently means to cut loose from baseball and he is now negotiating with several parties for the purchase of a ranch.

Freddie Harris, Henderson, a Spokane man, who is now looking over the Bricks, there are two or three other parties who would like to handle the team.

The price just now seems to be the sticker. The new park called for an outfit of about \$10,000 and the Bricks would like to get some of this back. He also values the players as well as the team.

Somebody will have to do it. If some person brings and that it would not take long to get it. If some person brings and that it would not take long to get it.

He will be an excellent player, for Mr. Savage has an offer of \$1,000 which he will accept if he can get the sale of players unless some higher offer is made in the meantime. He will be an excellent player.

GRAY BIRDS AND MATTERS ARE VERY EVENLY MATCHED ANOTHER TIE GAME 5 TO 5

Biersdorfer Was Hit Hard But Was Strong With Men on Base—Redmond's Two Errors in the Eighth Were Costly—Terrible Wind Storm Spoiled Otherwise Good Game

By Bulletin Leased Wire.

Medison Hat, Aug. 15.—The Hat and Edmonton played to another tie today. The final score being 5 to 5 at the end of the eighth when Umpire Taylor called the game. This means that, so far the victors and the Hat stand on the series each with a win, two games tied and one called off on account of rain.

Some excellent playing marked the battle but the terrific wind which hurried it and was responsible for a large number of the hits as the batsmen found it impossible to cover high ones. Manager Redmond had the battle for his team in the eighth when with the little leading by one run he batted the little batting Harris to reach third, and a few minutes later using Povey's territory to get "Giddy" high fly and though he got it in the net, he dropped it. The wind hurried Harris to come home with the little run. Biersdorfer and Kennedy, who opposed one another before were on the mound. Both pitched steady but not sensational ball. Each was in turn hit freely but the Hat's could not get to the finisher. The series with men on bases and piled up the total of ten men left on base. Three hits in the first gave the Hat two and two men in the second. Two men in the second and third and two men in the fourth. Two hits in the fifth and one in the sixth and one in the seventh. Two hits in the eighth and one in the ninth.

Two men in the second and third and two men in the fourth. Two hits in the fifth and one in the sixth and one in the seventh. Two hits in the eighth and one in the ninth.

SEBA BOATING CLUB TO HOLD A REGATTA

Big Program of Events Has Been Arranged For August 23rd

Special to the Bulletin.

Calgary, Aug. 15.—The Seba Boating Club, which has been organized for the purpose of promoting the sport of boating in the city, has arranged for a regatta to be held on Saturday afternoon, August 23rd. The regatta will be held on the Bow River and will consist of a number of events, including a 100-yard race, a 200-yard race, a 400-yard race, a 600-yard race, a 800-yard race, a 1000-yard race, a 1200-yard race, a 1400-yard race, a 1600-yard race, a 1800-yard race, a 2000-yard race, a 2200-yard race, a 2400-yard race, a 2600-yard race, a 2800-yard race, a 3000-yard race, a 3200-yard race, a 3400-yard race, a 3600-yard race, a 3800-yard race, a 4000-yard race, a 4200-yard race, a 4400-yard race, a 4600-yard race, a 4800-yard race, a 5000-yard race, a 5200-yard race, a 5400-yard race, a 5600-yard race, a 5800-yard race, a 6000-yard race, a 6200-yard race, a 6400-yard race, a 6600-yard race, a 6800-yard race, a 7000-yard race, a 7200-yard race, a 7400-yard race, a 7600-yard race, a 7800-yard race, a 8000-yard race, a 8200-yard race, a 8400-yard race, a 8600-yard race, a 8800-yard race, a 9000-yard race, a 9200-yard race, a 9400-yard race, a 9600-yard race, a 9800-yard race, a 10000-yard race, a 10200-yard race, a 10400-yard race, a 10600-yard race, a 10800-yard race, a 11000-yard race, a 11200-yard race, a 11400-yard race, a 11600-yard race, a 11800-yard race, a 12000-yard race, a 12200-yard race, a 12400-yard race, a 12600-yard race, a 12800-yard race, a 13000-yard race, a 13200-yard race, a 13400-yard race, a 13600-yard race, a 13800-yard race, a 14000-yard race, a 14200-yard race, a 14400-yard race, a 14600-yard race, a 14800-yard race, a 15000-yard race, a 15200-yard race, a 15400-yard race, a 15600-yard race, a 15800-yard race, a 16000-yard race, a 16200-yard race, a 16400-yard race, a 16600-yard race, a 16800-yard race, a 17000-yard race, a 17200-yard race, a 17400-yard race, a 17600-yard race, a 17800-yard race, a 18000-yard race, a 18200-yard race, a 18400-yard race, a 18600-yard race, a 18800-yard race, a 19000-yard race, a 19200-yard race, a 19400-yard race, a 19600-yard race, a 19800-yard race, a 20000-yard race, a 20200-yard race, a 20400-yard race, a 20600-yard race, a 20800-yard race, a 21000-yard race, a 21200-yard race, a 21400-yard race, a 21600-yard race, a 21800-yard race, a 22000-yard race, a 22200-yard race, a 22400-yard race, a 22600-yard race, a 22800-yard race, a 23000-yard race, a 23200-yard race, a 23400-yard race, a 23600-yard race, a 23800-yard race, a 24000-yard race, a 24200-yard race, a 24400-yard race, a 24600-yard race, a 24800-yard race, a 25000-yard race, a 25200-yard race, a 25400-yard race, a 25600-yard race, a 25800-yard race, a 26000-yard race, a 26200-yard race, a 26400-yard race, a 26600-yard race, a 26800-yard race, a 27000-yard race, a 27200-yard race, a 27400-yard race, a 27600-yard race, a 27800-yard race, a 28000-yard race, a 28200-yard race, a 28400-yard race, a 28600-yard race, a 28800-yard race, a 29000-yard race, a 29200-yard race, a 29400-yard race, a 29600-yard race, a 29800-yard race, a 30000-yard race, a 30200-yard race, a 30400-yard race, a 30600-yard race, a 30800-yard race, a 31000-yard race, a 31200-yard race, a 31400-yard race, a 31600-yard race, a 31800-yard race, a 32000-yard race, a 32200-yard race, a 32400-yard race, a 32600-yard race, a 32800-yard race, a 33000-yard race, a 33200-yard race, a 33400-yard race, a 33600-yard race, a 33800-yard race, a 34000-yard race, a 34200-yard race, a 34400-yard race, a 34600-yard race, a 34800-yard race, a 35000-yard race, a 35200-yard race, a 35400-yard race, a 35600-yard race, a 35800-yard race, a 36000-yard race, a 36200-yard race, a 36400-yard race, a 3660

ALBERTA'S YOUNGER NORMAL SCHOOL AT CAMROSE

NEW INSTITUTION IS MEETING NEEDS CENTRAL ALBERTA IN SUPPLY OF TRAINED TEACHERS

CRITICISM WITH WHICH LOCATION OF NEW SCHOOL WAS MET HAS BEEN LIVED DOWN—COTTAGES PROVIDED BY SCHOOL BOARD FOR ACCOMMODATION OF STUDENTS—STAFF, HEADED BY DR. J. C. MILLER, CONSISTS OF SPECIALISTS IN ALL DEPARTMENTS.

A year ago the Minister of Education, realizing the great need for trained teachers, provided for the erection of the second provincial normal school, to be located at Camrose. The old institution of Calgary has been rendering most efficient service, but the accommodation was taxed to the limit. A second institution in the central part of the province was clearly necessary.

Ample Accommodation at Camrose.
The erection of the new normal school at Camrose met with considerable criticism both from the profession and the general public. The

public, high and elementary schools. Through the co-operation of the school board and the Department of Education, a medical inspector of schools has been appointed, who examines all the pupils of the public, high and normal schools twice a year. He has general supervision of the pupils throughout the period of their attendance at school.

School Gardens.
When spring time came the children, under the leadership of Mr. Ralph Gibson, principal of the public school, immediately set to work to prepare and plant the first year

of the public, high and elementary schools. Through the co-operation of the school board and the Department of Education, a medical inspector of schools has been appointed, who examines all the pupils of the public, high and normal schools twice a year. He has general supervision of the pupils throughout the period of their attendance at school.

Board Provides Teachers' Residence.
In order to provide for the greatest comfort of the teaching staff, the Camrose School Board has erected a large, comfortable and modern building, capable of accommodating twelve teachers. Ample grounds for tennis

clubs are one of its main purposes the construction of home gardening as the part of the trained teacher. Indeed, none of the most effective school garden work is done in districts where the teacher has practically no garden at school, but takes a synthetic and helpful interest in the children's work in their home gardens.

Dr. J. C. MILLER, Principal.
Dr. J. C. Miller, principal of the new normal school, is a graduate of the University of Toronto, and has been in the service of the Department of Education for many years. He is a specialist in the teaching of the sciences, and has been in the service of the Department of Education for many years.

work for colleges. A graduate of the University of Toronto, he has been in the service of the Department of Education for many years. He is a specialist in the teaching of the sciences, and has been in the service of the Department of Education for many years.

Miss Margaret A. Stewart was appointed to the position of domestic science teacher at the beginning of the coming season. Mr. Tuck took honors in science at the Agricultural College, Guelph, Ontario, and has been in the service of the Department of Education for many years. He is a specialist in the teaching of the sciences, and has been in the service of the Department of Education for many years.

up to \$1,200.00. It must be recognized, however, that only experienced teachers, who have already proved their ability in the field are considered for the position on the staff.

Building New Normal School.
While these developments have taken place during the past school year, the future looks much in promise. The new normal school building is already under way, the foundation having been laid in June. It is expected that tenders will be called for the superstructure in a very short time. It provides eight class rooms for the normal school, four class rooms for the public school, a large gymnasium, with the usual locker rooms and shower baths, three rooms for manual training, four rooms for domestic science, three rooms for the science department, one room for the fine arts and one large assembly hall with the stage and dressing rooms. Offices for each of the specialists, as well as for the principal of the normal school and the principal of the public school, are provided in the normal school and a library room for the public school. Between the two primary rooms and the science department there is a room for the

STRIKE AT MINOT, N.D. IS ALMOST DISPELLED

Minot Citizens Determined to End Strike Conditions Brought About by the Industrial Workers of the World.

Minot, N.D., Aug. 15.—The determination of Minot citizens to end the strike conditions brought about recently by the Industrial Workers of the World, was evidenced last night, and as a result the city has been completely quiet. A terrible rain storm, the second in a week, fell about the time that it is supposed the Industrial Workers had planned a strike meeting, and though the storm was of but short duration, no attempt was made after the storm to begin the scheduled trouble. Early last night, six mounted police officers made a tour of the city's outskirts, telling members of the Industrial Workers of the World, to leave the city, and many of them immediately complied. At 11 o'clock, N.D., Aug. 15.—Overtures for a peaceful settlement of the trouble

COMFORTABLE DINING ROOM IN THE DOMESTIC SCIENCE DEPARTMENT.

way in which the school board and citizens of Camrose have measured up to their opportunities and new responsibilities is perhaps the most effective answer which they can give to such criticism. Without hesitation, the school board provided, last fall, three cottage schools for the accommodation of those pupils displaced by the normal school. A large cottage school was also erected for the accommodation of the deportments of manual training and household science. Provision was made also for securing a large hall for use as a gymnasium.

Complete Equipment and Instruction.
Through the co-operation of the Department of Education and the school board these departments have been fully equipped and were in operation shortly after the beginning of the new year. The equipment is complete and of the very best, and is

school garden to be provided in any village, town or city in the province. The interest of both teacher and pupils in this new experience was most keen. The results are awaiting their return after their vacation period is over.

The problem of the garden as a medium of expression for childhood, and as an educative instrument, for parents and teachers, is one to challenge the thoughtful consideration of those guiding our educational policy. Its possibilities are not fully realized, and its limitations not yet fully appreciated. The simple and natural relationship of all mankind to the soil and to nature should accompany all the early educational development of the child. The most effective way to secure this beautiful, valuable experience is to have this relationship flourish in the daily experience of all the children from year to year.

courts are included in this provision. In taking this step the board is leading the way for the towns and villages of the province, in many of which it is almost impossible for teachers to get suitable accommodation.

Normal School Staff.
The organization of the normal school and the extension of the public and high schools have necessitated the employment of a staff of specialists to the selection of which the Department of Education has given most careful thought. Dr. J. C. Miller, principal of the normal school, is fully familiar with western conditions. Accompanying his parents to Regina in 1882, he received his early education there, passing successfully through public, high and manual training and the bachelor of science degree from the University of Toronto. During the summer of 1905-06 he was a student at the University of California, taking special courses in education under such educational leaders as Professor John Adams of the University of California, and

Woman Tries to Find Missing Relatives.
By Carole Colbourne Secs Brother-in-Law While Travelling on Street Car, But Fails to Find Him Later.
Seeking her father and brother-in-law, who live in Edmonton, but whose address she did not know, Mrs. P. J. Jones, who had with her two small children and a baby in arms, applied to the police station this morning, having just arrived from Dallas, where her husband is a building contractor. The only address given to Mrs. Jones by her father, who has been in Edmonton since last January, was Newwood, Edmonton. Mrs. Jones proceeded to Dallas and found that the search for her father, whose name is J. E. Linchman, had been looking for a week in a hopeless, strange way, as she was proceeding to Newwood in the street car she saw her brother-in-law, whose name is Herman Schell, walking down Newwood avenue. She told the conductor to stop, but the conductor failed to do so in time and before the time she alighted her brother-in-law was gone. His address she did not know, but she believes he is employed in a wholesale delivery establishment. Detective Shaw was detailed to contact Mrs. Jones.

Difficulties Over G.P.F. HOTEL.
Hester, Aug. 15.—Hesterers were on the new G. P. F. Hotel here, and it was necessary to provide a concrete mattress five feet thick over the entire bottom of the excavation to support the big superstructure, an account of the impossibility of finding a rock bottom. Piles driven into the ground are found to be useless. The excavation is practically completed at 21 feet.

SHOWING STUDENTS' DESKS IN THE WOOD-WORKING DEPARTMENT.

science teacher at the beginning of the year and has succeeded in organizing her department before the end of the first term. Miss Stewart, in addition to being a fully qualified teacher in the province of New Brunswick and holding a specialist certificate as primary teacher, is a graduate in household science from McDonald College. For a number of years she served efficiently on the Calgary staff, until she was called to the position at Camrose. While in Calgary she was instrumental in the development of a night course in domestic science, and also with the organization of the press, in illustrating the arts and women of Calgary. During the current season, Miss Stewart is taking a course at Teachers' College, Columbia University, with a view to fully fitting herself for her duties at Camrose, other members of the staff are Miss A. M.

primary specialist, and passing out through French windows from this room, one enters an adjacent open-air room on the roof of the rear portion of the gymnasium. This open-air classroom is a feature which has taken advantage of in a previous project lately suited for the use of such a room than any other in the Dominion. Leading down from this open-air room is the staircase connected with the play grounds reserved for the use of the primary children. It will, therefore, be seen that the primary department is really a unit complete within itself, although centrally placed in the larger building. With the ten acres site already secured for the normal school, with the 10-acre agricultural park adjacent thereto, there is ample ground for all phases of outdoor play as well as for school, domestic work and the development of a demonstration station in agriculture.

growing out of the attempt of the Industrial Workers of the World to conduct street meetings and organize a union of farm hands have been made by leaders of the organization and authorities today believe the war here is nearing an end. It was stated by officials however, that no mercy will be shown any of the prisoners who participated in the rioting which has resulted in 145 arrests. The trial of 21 defendants, headed by Arthur Leiser, former city official, was conducted last night, introduction of testimony for the defence.

H. H. Hunt Takes Two Years.
Ottawa, Aug. 15.—J. D. McArthur, the contractor for the Hudson Bay railway who is now in the city, is of the opinion that the road will not be completed till 1914. By the close of the present autumn, he says two hundred miles of the road will be

DOMESTIC SCIENCE KITCHEN EQUIPPED WITH MODERN KITCHEN UTENSILS.

equal, if not superior, to that found in any such departments in the province. Well qualified specialists have been secured for the teaching of the manual and fine arts and for household science. A supervisor of music has also been appointed. Within six months from the time it was decided to establish the normal school, the above provisions were made for additional accommodation, and the special lines of work were organized in both

from grade to grade. The possibilities of further grading in the villages, towns and cities are much greater than may be at first realized. The villages where the vacant lots are numerous in our widely subdivided municipalities, could ground can be made available for all the gardening work the school children could undertake. It must be remembered also that no school garden policy is adequate unless it is

California in January, 1908, where he remained for four years, receiving at the end of that period special diplomas in elementary and in secondary manual training and the bachelor of science degree from the University of California. During the summer of 1905-06 he was a student at the University of California, taking special courses in education under such educational leaders as Professor John Adams of the University of California, and

British House Is Forfeited.
London, Aug. 15.—The British job postman was arrested today and will not receive his salary for some time. He is something extremely important because he is the only one who can read in the House of Lords was forfeited.

Children of the Gardening Class at the Camrose Public School.
Smart, specialist in manual and Miss Missel Proctor, secretary and Division Grade Teachers for Good Salaries.
In providing a staff in the practice school the department and the school board have conferred with a view to securing the best teachers available. The salary schedule is what higher than that of any city in the province. The grade teachers start on an initial salary of \$1,000.00 with an increase of \$50.00 per year.

It is hoped that in association with the normal school there will be developed a scheme for the consolidation of the rural schools in the neighborhood of Camrose with those of the town, and that the local high school will be greatly strengthened, especially along the lines of agricultural instruction.

stranded. Little difficulty has been encountered in connection with the construction of the line. There is much work to be done, however, and Dr. McArthur thinks it will not be possible to complete the road within a couple of years. Mr. Graham Newton is in town again after spending his holidays at Lake Louise.

CHILDREN OF THE GARDENING CLASS AT THE CAMROSE PUBLIC SCHOOL AT WORK IN GARDEN.

LABOR WORLD DOINGS

TWO MILLION HAVE LEFT BRITISH ISLES FOR CANADA IN PAST 30 YEARS

This is Statement of T. W. Sheffield, of Royal Colonial Institute, Who is Now Touring Western Canada—Hard to Find Out Regarding Opportunities

There has been two million persons left the British Isles for Canada in the last thirty years, according to T. W. Sheffield, of the Royal Colonial Institute, who is now touring the West.

When times get hard here, especially in the winter, workmen are prone to protest against the large immigration into the West, but with the great Peace River country opening up, the transcontinental roads of the C.N.R. and G.T.P. still with much more to do, as well as the thousands of miles of branch lines, there is opening for at least agricultural and railway laborers. Mr. Sheffield reports on several phases of the economic problem in the Old Land.

"I was recently in the great manufacturing centre of Manchester, one of the most of the works connected with the steel and hardware industries were working overtime. In spite of this, large numbers of people were leaving for Canada. In one instance a man, who is a family head, secured from his relatives the sum equal to \$225 to send him through to Vancouver, and made possible by the fact that the family were all working in the steel industry and having good wages, and that he subscribed the necessary capital to him. In the time spent in the city he was not having any fortune.

Men Who Make Good. Most men make good. The conditions play a large part in attractive persons to take their luck in their hands and sail for the land of the maple. The Devonshire farm laborer, seen a former worker who has come home for a holiday and learned from him that he is the owner of a good-sized farm. The Irishman who wished to emulate his example, should wonder that there is nothing to let. The little in the window might well bear the inscription, "Come to Canada, to the farm to the city."

There is no doubt, too, that the literature that has been issued by the Dominion Government, and that Ottawa is a large extent, is quite interesting for the better class immigrant. The Dominion propaganda of the Dominion and provincial governments in conjunction with the active work carried out by their agents has materially assisted the flowing tide and the authoritative statements of British capitalists, combined with the spectacle of material evidence from the Dominion, and the ever-increasing interest taken in the subject by newspapers and magazines, have all helped the great movement. The human element in this class is

foreign action, which prevails in many of our Canadian cities at the present time.

At the present time in Great Britain, perhaps with the exception of the United States, is a very difficult to secure accurate information of the specific opportunities presented by the country, except, however, on the basis of general, and all other conditions, for the better class of men desire to know, definitely what he may expect. There is no doubt that a great deal of the class and rising townspeople of Canada to secure their share of the rich middle class as settlers—entrepreneurs, tradesmen and investors—who are taking an ever-increasing interest in the development of Canada.

If the boards of trade follow the lead of the Dominion and provincial governments they would soon increase their population almost immediately. Such a bureau representing their interests could give the necessary information governing the commercial opportunities of their respective cities and supply all their needs.

Points of Great Opportunity. The middle classes of Great Britain are not to look ahead at the work of the Dominion, and it is probably owing to the conservatism of this very class that they do not avail themselves of the opportunity presented by many well-managed and successful enterprises, but there is no doubt that if information bureaus were well established and the word "immigration" eliminated altogether they would seek information regarding their particular business, trade or calling, which again points out very forcibly the need for the Dominion and provincial governments to have such bureaus with branch offices catering for the requirements of the boards of trade throughout Canada.

British Literature and reports could be sent to the secretary or to the members, employed in the main offices and branches and distributed to the members of the boards of trade, and commercial opportunities could be made available to the British who are ready to take his part in the spreading of both eastern and western culture.

Labor Observations

H. G. Wells, the noted English writer, whose columns are seen towards the history of socialism in a book, according to the London Globe, one of the best of the kind in the world. Wells is now at work on a new book, which is now at work on a new book, which is now at work on a new book.

The "sand in the hour glass is running low and ere long the cry will go out 'Canada for the British and white races,' but not until the channels of immigration are controlled by the joint action of the British and Canadian governments. Then, and not until then, shall we get what will ultimately be the desire of all Canadians—that is, that people who can associate with our own people, live our manner, customs and ways and by the blood and religion become one people for the upbuilding of a mighty nation, without back-lashes with a

Canada Labor Notes

The storm long brewing against the Asiatic as represented in this country by the Chinese, Japanese and Hindus, is evidently about to break out in some way of some definite action. Following the way led by the government of California recently, residents of the Okanagan Valley are taking extensive steps to give white land owners the advantage over the Chinese, and in that connection will shortly recommend to the provincial government the passage of a bill, the provisions of which will be somewhat similar to the California Land Bill, recently passed by the California Legislature, under which it is impossible for Japanese to become land owners in that State.

The feeling against the Chinese and Japanese is very strong at the present time, in spite of the fact that the Orientals engaged in farming there are very industrious, and are successful in their agricultural operations. The Board of Trade of Duncan, B.C., which started the new movement, sent a copy of the resolution dealing with the question to practically every other board of trade in the province, and immediately there have been heard from the government will be approached.

At a recent meeting of ratepayers of the Granville Ratepayers' Association, Vancouver, a resolution was adopted, strongly against the Orientals of any race to come into the country at all over passed.

The members did not advocate merely restricted immigration, but asked for total exclusion. A resolution will be sent to Ottawa strongly urging the government to put a ban on this class of immigrant coming to Canada.

Hindus also have been another class of immigrants to meet with very hostile reception by the working men in the sawmills on the coast and elsewhere. The Hindus cannot enter Canada unless they come directly, and as there is no direct line, an aggressive leader of this class of people is reported by the Vancouver papers to be about to charter steamers of his own to come direct, and thus overcome the law.

The report of another serious break in the ranks of organized labor comes from Calgary, where, because of differences which have arisen between the local Typographical Union and the Trades and Labor Council, the printers have signified their intention of severing their connection with the council, and at the end of the present month they will withdraw from the labor organization.

Some time ago the Bricklayers' and Masons' Union disassociated themselves from the council on account of differences which had arisen, and the action of the printers will mean that two of the strongest trade unions in the city, representing close to 1,000 trade unionists, are not represented on the Trades and Labor Council board.

The printers' chief reason for severing connections with the representative labor association in this city is because they are of the opinion that the organization is becoming closely allied with Socialism. At many of the meetings, the printers claim, labor men who are nothing but out and out Socialists, come in large numbers, while the great majority of first-class thinking labor men stay away.

 JAMIE BLACKSTOCK, b.g., 6, by Bonnie Joe, C. Gardiner, Macleod, Weight 120

Thrills Were Absent at Yesterday's Races But Card Was A Good One

 Two Dollar Ticket on Majesta Paid \$166.50—Alpha Dell and Pat Linton Won Harness Events—
 Red Rock Badly Distanced—Commerce and Oxer Again Won Running Races—Jungle
 Won Short Dash—Small Crowd Attended Races

A cold, biting wind and a truck of the consistency of thick porridge made things anything but pleasant at the exhibition races yesterday. Despite these drawbacks, however, the public appeared to enjoy the afternoon's sport. The crowd was small but every race attracted considerable interest and the betting was brisk.

The feature of the card was Majesta, who in the first half of the second and harness race. The Vancouver horse was a rank outsider and a two-dollar straight ticket on her paid \$166.50. Pat Linton, the favorite, did not show his heels until the second and then went out and closed up the race in three straight heats.

Red Rock Didn't Pan Out

Red Rock, the little Denver mare, had been picked by the wise ones to win the first race but she got away badly and was badly distanced in the first heat. Alpha Dell won the race in straight heats. With Red Rock as the favorite, Alpha Dell paid well in the first, a two dollar ticket bringing in \$122.50. Joe McGregor also carried a lot of money in the first two heats on account of Steady's successful driving on the first two days but he finished nowhere in the first and was distanced in the second.

Thrills Were Absent

The running races did not provide any of the sensational finisher of the previous day but they were good races and the public got a great run. The favorite captured two of the races while in the third the favorite, McGuire, was beaten out by Commerce. The talent seemingly gave up the race, despite his sterling work on Thursday.

The most popular win of the afternoon was that of Oxer in the seven furlong, the last race on the card. With Dorthie, Sporting Life, Oxer, Thelma, and Sam Hank all in the running, Oxer was a big favorite.

To pick a winner from and for a time the talent appeared to be unimpaired but gradually the red-hot betting cooled and the money came in on the Spokane horse in straight heats. Third Chance and Dorthie also carried a lot of money. Oxer justified the confidence in him by leading the field from start to finish with Sporting Life a good second. Dorthie led in the stretch after the second and early in the third. Third Chance was a poor fourth, while Sam Hank was a poor fifth.

Jungle Won Five-Fights

Another popular win was that of Jungle in the five-fights running race. Danfield and Jungle were about evenly divided in the betting, while Neville was also heavily played. Jungle redeemed himself for her poor showing on Wednesday, leading the field almost from the start. Neville made a pretty fight to overtake the flying Jungle but failed. Danfield, who was expected to at least place and backed by many to win did not run nearly so good a race as his first.

The 2:18 Pace

The betting in the first harness race, the 2:18 pace, opened with Red Rock heavily backed as favorite. Alpha Dell was apparently overlooked and straight tickets paid big money. A lot of money was also played on Joe McGregor and Hakey Hall to show but neither got inside the money. Alpha Dell captured the race in a good finish with Hal Grey, who settled down in the stretch after breaking badly mid of the way around. Alpha Dell had enough in reserve to beat out the grey horse at the wire. M. McLaughlin, who was not figured to have a chance, was a good third. Red Rock was badly distanced. Two dollar straight

tickets on Alpha Dell paid \$122.50. Hal Grey also gave a good return, two dollar place tickets paying \$10.70. J. M. Adair paid \$5 for two dollar show tickets.

Alpha Dell was the favorite in the second heat, although Hal Grey not a big play on account of his fine finish in the first heat. Most of the money on Hal Grey was to place or show. Alpha Dell won the heat easily. Hal Grey earned credit when he settled down to place but he broke about six times, throwing fourth, Johnstone and Mary Manner leaving him in the wire. Joe McGregor and Richard Lou were distanced. Alpha Dell paid \$2.70 straight, J. M. Johnston \$2.80 for place and Mary Manner \$2.80 for show.

The third heat was practically a repetition of the previous one, Alpha Dell won in a walk with Mary Manner second, J. M. Johnston third and Hal Grey fourth. Alpha Dell paid \$3.10 straight, Mary Manner \$3.10 place. There was no show money.

Odds of 33 to 1

The big margin of the day came in the first harness race, the 2:18 pace. Majesta, the market of outsiders, brought in first well in front of Pat Linton, the favorite. A two dollar straight ticket on Majesta paid \$166.50, one of \$3 to show. Pat Linton paid \$2.80 to place and \$2.80 to show. Pat Linton went out and showed his superiority over the rest of the field in the second heat, winning straight, Majesta \$2.60 place and Linton \$2.70 show. The third heat was a repetition of the second. (Continued on Page Thirteen.)

The Bread of Today and Others

Last week we told you of our machine for automatically making and weighing and now we come to the proving or setting away for a period of five minutes in a warm room, after which the bread is ready for the hand-pressing machine, which, from the standpoint of ingenuity and science, is said to be the most wonderful machine ever invented for the baking trade.

It took ten years of study and improvement to get it where today it takes the place of ten men, and incidentally does the work in a cleaner way.

From this and what has gone before we are endeavoring to show you why

"CAMPBELL'S BREAD"

is good for young and old, and that you never make a mistake in insisting on getting what is best from the standpoint of cleanliness.

Go to the "phone room, while the desire is with you, and make arrangements for one of our wagons to call at your door.
